Portfolio Website Starter Template

Project Overview	Amanda is an application that provides a service of sewing wedding dresses and selling ready-made models to the customer from designers with high skills and experience.
Project Real-World Application	The portfolio website: ● Welcome to Amanda I'm a creator Amanda, a web developer, and I'm interested in fashion design. ● Amanda is a group of fashion designers to share with you your most beautiful moments and salute you with the love of your wedding dress with skill and high quality. We care about your opinion and want to earn your trust in us and provide the best service for you. We always want to provide the best. Contact us: phone number (+966543699008) tel (77075479065) Email (amanda.shop@outlook.com) twitter (AMANDA.shop) instagram (AMANDA.shop)

|	
Project Requirements	Your portfolio website will have two important components: the website pages, and the header and footer. ● You will be creating a 4 to 6 page portfolio website that consists of the following pages: ● **https://emmae2019e.wixsite.com/amanda-shop**
Submission	You will be using this template to take screenshots of your work for submission to both streamline the processes of student project submission and project review from our mentors. Use the boxes below to submit screenshots of your work. As a "nice to have," please highlight and/or put a box around the focus area of the website (see instructions in the blue boxes beside each submission area.) You may use the example below for reference. Lastly, be sure to include the URL of your website page, whether the screenshot is proof of your portfolio website or your social media presence.

STEP 1: Create Your Website

Use the resources you previously created in exercises (like your "brand bible," resume, etc...) to create and submit screenshots of each of your portfolio website pages. Your screenshots must show consistency in font and colors across the entire website, and *your profile description must be consistent, where requested to be displayed.* Your navbar must have access to all of the pages below. Your footer must link your social media and freelance market accounts.
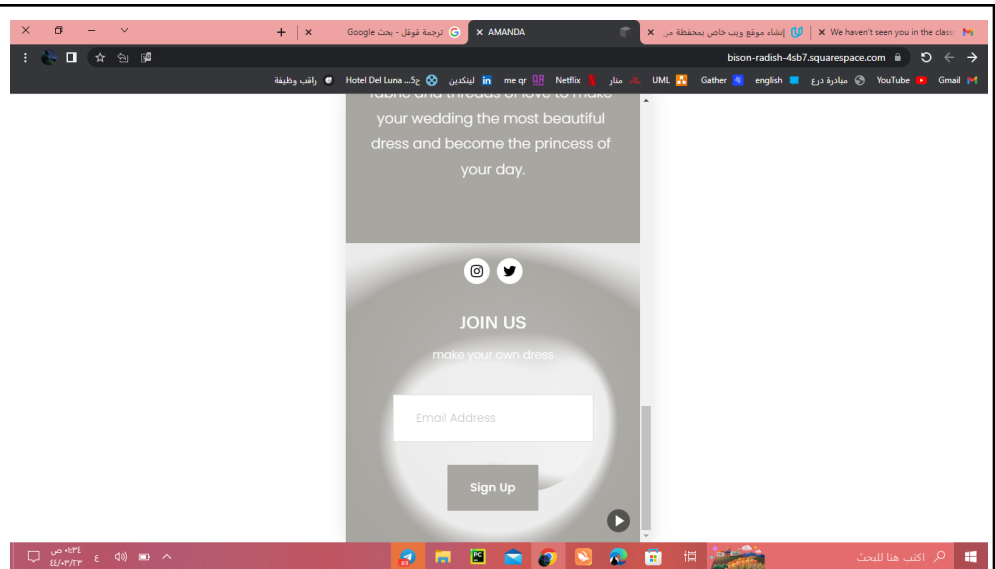

Landing Page Instructions	Your Home page must include the following:
	1. Hanin
	2. Alzhrani
	3. Welcome to Amanda
	I'm a creator Amanda, a web developer, and I'm interested in fashion design. I hope you enjoy spending your time browsing the Amanda application, we welcome you always..
	4. Join us now

Landing Page Submission

About Page Instructions
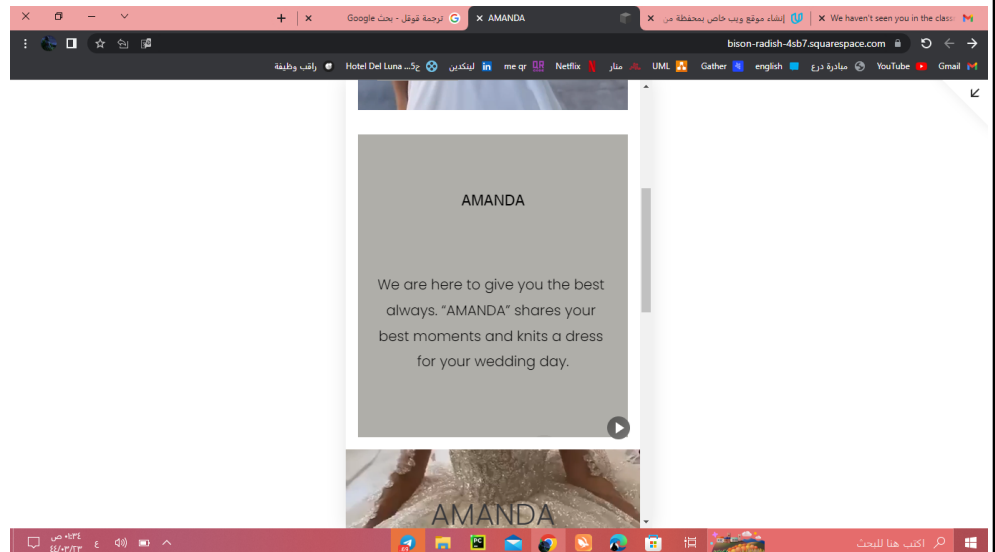

Your About page must include the following:

1.

2. A profile description, which must:
   a. I have love and passion in this field and I can do the best in it
   b. I have degrees in web design and development.

Project Page Instructions	Your Project Page must include the following:
	● Include at least 2 projects.
	● Each project must have:
	  ○ A project description:
	    ■ The goal of the project is to make Amanda a global application in which designers meet, and it aims to collect a large number of beneficiaries and provide them with service in an easier and remote way.
	    ■ And create the application for the audience.
	      ● I work individually on developing the application and with the publication of the application I will work with a group.
	      ● I made an interactive application interface through which you can preview the application's operation in reality without html, css and java script codes.
	    ■ There is a video in the zip file.
	    ■ Analysis skills, feasibility study of the project, design of the logo for the application and interfaces, and finding a solution to the problem.
	    ■ HTML , CSS, Javascript, PHP, database.
	    ■ Display project link (if applicable)
	    ■ 3 month and 48 hours
	    ■ The video is in the zip file.

|
